

Company Profile

Who we are:

Established in 2001, Gruppo Euroservizi Soc. Coop. is a cooperative society set up by its founding members in order to give life to an instrument capable of creating new jobs and economic development. It operates mainly in the construction market with emphasis on ordinary and extraordinary construction maintenance.

With an eye on creating entrepreneurial competence in a number of sectors, the company has three principal divisions: General Construction Division, General Services Division and Building Division.

The main division of the company is the General Construction which, having worked for twenty years in the construction field, can undertake any type of building work from renovations, ship yard constructions and manufacturing plants.

To improve the company's drive for quality, the management decided not only to update their production system according to the regulation UNI EN ISO 9001:2008 but to also certify the company for public works issued by LA BENTLEY SOA S.p.A..

With a view to seeking continuous improvement, Gruppo Euroservizi Soc. Coop. has subsequently adjusted its Quality Management System certification to the new UNI EN ISO 9001: 2015 standard.

Staff:

Functions performed within Gruppo Euroservizi Soc. Coop. relate to:

- TECHNICAL OFFICE AND WORKS MANAGEMENT;
- PRODUCTION (ie implementation of awarded works);
- TENDER AND COMMERCIAL OFFICE;
- ADMINISTRATION, MANAGEMENT AND PURCHASES;

Our goal:

Our goal is to meet the growing needs of our clients, providing them with the new "contract" and "turn-key" formula in both public and private projects, guaranteeing quality of work and lead time delivery.

Thanks to its internal organization, the significant expansion of its equipment and vehicles, the quality and professionalism of its workforce and a vast network of leading building materials manufacturers (all of which guarantees speed, quality and competitive prices), over the years Gruppo Euroservizi Soc. Coop. has succeeded in being a reference point for public and private companies and professionals alike. We do this by relying on what we consider the client needs most: professionalism.

Since 2001, Gruppo Euroservizi Soc. Coop. has experienced a significant increase in turnover in the building sector, not only in terms of quantity but also in quality and organization. Proof of this can be seen in the various public and

private contracts and awarded works obtained, proving the professionalism and reliability of this company as a leader both in its own territory and beyond.

A company which carries out the works entrusted to it by ensuring that the entire production cycle is in compliance with the regulations and standards in force as well as constantly maintaining the highest levels of quality and customer satisfaction, in terms of timing and quality of work.
